The Commercial Savings Bank of Jackson has completed organization, and expects to be ready for business in a few days. About \$8000 of stock was subscribed by Amador county residents. John Raggio of San Andreas, well known stage man, is president. Several of Jackson's citizens have taken stock in the bank, which has a prosperous future before it.

O. Clark of Drytown was in Jackson early this week. Although 84 summers have passed over him, he is hale and hearty for his years. He is thinking of taking a trip east as far as Portland in the interest of temperance. He attended the first meeting held for its object the organization of Amador county. This meeting was held under a tree in Sutter Creek, where the political machinery was set on foot that eventuated in the division of Amador county. That historic gathering was held over 50 years ago. Of those who participated therein, we have James Meehan of Jackson and O. Clark of Drytown are the only survivors.

Traction Engine a Success.

The initial trip of the traction engine was made over the lone road to the Onida mine last Monday. The engine left Onida about 10 a. m., and arrived at Martell's at 5 p. m. The run from the station to the Onida was made early Tuesday morning. The management is elated over the success of the trip, and are convinced beyond a doubt that the steam wagon is here to stay. The horses that were met on the road paid very little attention to their new competitor, undoubtedly being accustomed to the rock-breaker which has been on the road for two or three years has caused the teams to become used to rattle and noise incident to machinery run by steam. The wagons hauled by the engine are made on the same plan as the engine itself. They have three iron wheels, their capacity being ten tons each. Only two, however, were hauled on the first trip, but as soon as everything is adjusted and the roads are put in better shape five wagons will be hauled, and a round trip between the mines and Onida will be made in a day. The engine will be kept busy hauling oil to the mines, and by hauling return freight, such as sulphates, it will undoubtedly be a paying proposition. When the outfit arrived at the Onida it was followed by the horses, about twenty, who seemed to be curious to know what was going on, and evidently wondering if it would be their "finish."

Wednesday the traction made its second trip to the Onida, with a heavier load, over 100 barrels, and returned the same night. Thursday, however, the machinery was somewhat out of sorts, and had to be repaired. Another trip will be made today.

Telephone Linemen Strike.

For several weeks linemen have been employed by the Sunset Telephone Company in erecting tall poles in Jackson, and changing the wires thereto. The work has practically amounted to the construction of a new line. Four experienced linemen have been employed at this work. By Monday night they had the line in running order, the principal work remaining to be done being the taking down of the old wires and poles. This would have taken the force about two weeks more to finish. Monday evening word was sent from San Francisco that the linemen's union had declared a strike against the Sunset Company. Three men belonged to the union, and they obeyed the strike order. The other is a non-union man, and an expert in his business, and declined to quit. He had no grievance against the company, and concluded to keep at his post. The strike is for \$3.50 per day as the union-men's wages for this class of work. The average heretofore has been about \$2.75 per day. The union employees left Wednesday morning. A strike of linemen has been on in Los Angeles for the past six weeks, and the general strike for increased pay is partly of a sympathetic nature to help the Los Angeles strikers.

Buggy Capsized.

W. J. McGee had a remarkable experience while on his way to Silver Lake this week. Somewhere this side of Ham's, the horse—a very docile animal—balked and backed suddenly, cramping the wheels, and turning the buggy completely over before McGee had time to do anything to avert the accident. McGee and his son were thrown out, with the buggy squarely over them. The boy was the first to crawl out of the dilemma, and McGee followed, and the buggy was soon placed right side up, the horse remaining as gentle as could be during the operation. Fortunately, neither McGee nor his son received a scratch as the result of the accident, nor was the buggy damaged in the slightest degree. In a few minutes they were journeying lakeward again as though nothing had happened. The only explanation of the affair is that a snake must have appeared in the roadway and frightened the horse, causing it to back so unexpectedly.

The Delinquent Tax List.

The delinquent tax list has been curtailed by over 70 names since its first publication in these columns. Nearly 30 persons paid up during the past week. Many of the delinquents allowed their taxes to fall in arrears through ignorance of the law. The sheriff's office has adopted the practice of sending each delinquent a postal card showing the amount due for taxes. This simple notification has had the effect of materially reducing the list, and at the same time swelling the coffers of Amador county.

Communication.

We hereby wish to express our deep regret that Mrs. Schacht's name was mentioned in the way it was in connection with the death of Frank Hoffman. She was in no way to blame for the sad end of Uncle Hoffman, for she was always respected by both aunt and uncle Hoffman when our aunt was living.

SUNDAY OPENING AT UNION HOUSE.

The Union House will have a grand opening next Sunday, June 28th, at which time a chicken dinner will be served at noon for 25 cents per plate. Short orders will be served at all hours, day or night. The dining room has been refitted and placed in first-class order. A good meal is guaranteed.

Accident at the Merry-Go-Round.

Last Saturday night little Janie Leonzio met with a severe accident at the merry-go-round. The little girl was being held by a gentleman, a friend of her family, who was sitting just out of the tent, waiting to put her on a horse for a ride. When the whistle blew, an Italian who was riding attempted to jump off the machine before it had stopped. He missed his footing and fell against one of the tent poles with sufficient force to knock it from its place and cause it to hit the little girl a severe blow, which broke her thigh bone. She was immediately taken to Wilford Dennis' residence, and Dr. Phillips was called and set the bone. After which the little girl was sent to her home near Jackson Gate.

The proprietor of the merry-go-round regretted very much that the accident occurred, but no blame could be attached to him. He went out to the Leonzio home last Sunday and gave the unfortunate girl \$25, as he understood that her folks were quite poor. His generous act was very much appreciated. The man who caused the accident has agreed to give a like amount, which shows his disposition to be fair.

An Exciting Ball Game.

Last Sunday the Jewel Boursbons and Volcanos again crossed bats on the Jackson grounds. Both nines were determined to win, and every player did his best notwithstanding several costly errors were made. The errors were offset by a number of good plays, which were appreciated by an enthusiastic mob of "fans." The Volcanos had the game all but won, but fell down in the last two innings and lost the game. They claim that this was on account of their pitcher being hit on the arm while at the bat in the sixth inning, thus crippling him for the remainder of the game. The boys took their defeat gracefully, and went home with the determination that they would win the next game, and are practicing accordingly. Following is the score:

Volcano	0	0	4	1	1	0	0	11

Next Sunday, June 28, the Placer-villes will go up against the Jewel Boursbons on the Jackson grounds. Both teams have good records, and a rattling game is anticipated.

The addition of Fleming to the local team was a wise move on the part of Manager Burgin. Fleming won the crowd in last Sunday's game by his excellent fielding and batting, and the home run which he made was the "first of the season" in Amador county.

School Trustees.

When the last list of school trustees elected was published the names had not all been received by Supt. of Schools Geo. A. Gordon. The following are the additional names received: Middle Bar—J. J. Stewart, 1 year; Bridgeport—T. J. French, 2 years; Frank A. Tyler, 3 years.

Julian—J. L. Lucas, 1 year; G. W. Haney, 2 years; R. A. Hanson, 3 years. Franklin—F. A. Goodman, 3 years. Pioneer—H. C. Toop, 3 years. Carbonado—E. Christofferson, 3 yrs. Pigeon Creek—W. H. Sharp, 3 yrs.

Attempted Suicide in County Jail.

"Jakie" Harris, a well known character of Sutter Creek, attempted to commit suicide in the county jail last Monday night. From under sheriff Jackson we learned that Harris appeared at the jail about 6 p. m., and said that he "wanted to give himself up as he was in trouble." Jackson soon ascertained that it was a bad case of "jim jams," and locked him up for safe keeping. About an hour afterwards one of the prisoners heard unusual sounds in Harris' cell and notified Jackson, who upon investigation found that Harris had inflicted a deep cut in his throat with the broken part of a spoon. This instrument was not successful, or too slow to do the job, so he discarded the spoon and was using an iron poker when discovered. He was a ghastly looking sight, and it is quite likely he would have finished himself had he not been discovered. Dr. Endicott was called and sewed up the wound, and Harris was placed in a straight-jacket for the balance of the night. He is now improving, and is expected to soon recover from his horrible experience.

Yesterday afternoon he was examined by Drs. Endicott and Gall on a charge of insanity, and committed to the Stockton Asylum.

A Visiting Pioneer.

T. F. Gilliland, a cousin of Mrs. J. Taylor of Amador City and Mrs. E. G. Freeman, formerly of Jackson but now of Oakland, has been visiting in the county for several days. Mr. Gilliland is a pioneer of Amador county, having mined in the camps of early days. He left here in '93, fifty years ago. This is his first visit since that time, and the march of time is plainly noticed by him. Mr. Gilliland is a resident of Bluffton, Indiana.

LOCAL MINING NEWS

Notes From Amador County Mines.

ARGONAUT.—We are prepared to state that no definite steps have been taken as yet looking to the active resumption of mining at this mine. A few timbers have been hauled in for doing necessary repairs to the shaft. These repairs must be done anyway. The inference that the underground works are to be reopened, and a full force employed with the view of placing the property on a working basis, is premature. The repairs will take some time to complete. Upon their completion, the starting up of the mine in full blast will depend upon circumstances.

VAUGHN.—James Champion, owner of this claim in Hunt's gulch, was in Jackson early this week. Parties representing New York capitalists were also here looking at the property. It is considered likely that they will furnish means to develop the claim. For the amount of work that has been done, this location is considered a very promising one.

MITCHELL.—The Mitchell mine, near Pine Grove, was sold by the sheriff last Saturday under judgment for foreclosure of liens. Contrary to expectations there was no competition in bidding. The property was operated by an unincorporated company, and hence none of the individuals comprising the partnership could purchase without doing so for the benefit of all, no matter how strong his faith might be in the value of the mine. Judge Davis bid it in for the lienholders for \$4183.20, the amount of the judgments and costs.

SOUTH EUREKA.—It is pleasing to report a decided improvement in the output of this mine. The clean-up last month left a balance of about \$3000 over all expenses. As the mill crushes on an average about 50 tons per day, this output amounts to a clear profit of about \$2 per ton on the month's run. It is expected that the assessments which have kept the stockholders digging into their pockets almost as persistently as the miners have been digging into the bowels of the earth, will now cease. J. W. Truscott, it is understood, will soon retire from the superintendency, which is greatly regretted by the company, as he is a thoroughly efficient miner and careful manager. To his work as superintending the improving prospects of the mine are in a great measure due.

Wagon Load of Trout.

Vic Rocco and Gus Laverone came down from Silver Lake Monday. They reached Jackson about noon, having left Ham's station that morning. They brought down 150 dozen of trout, securely packed in ice in boxes. They were away about three weeks, and were tolerably successful in fishing, after they got fairly started with the sport. The entire catch was made by the two fishermen. It is usual to get the Indians to assist in corraling these choice denizens of the lake, but this year the Indians failed to show up, or at least to manifest any interest in fishing. The local reached Jackson just as it left the lake, without being unpacked en route. The boys had lots of trout to give away to their friends. In return for their consideration in hunting for the benefit of their friends, the beneficiaries were permitted to donate toward defraying the expenses of the expedition. The fishermen were anxious to comply with the letter of the law. Now it happens that there is an ordinance of Amador county which declares it to be a misdemeanor to sell any kind, quality or size of trout, in Amador county. It makes no difference whether the fish have been caught in the waters of Amador county or not. There is no objection to catching all the trout you can with rod and line. It is not the catching, but the selling or offering to sell that is made the crime. To comply with this detectable statute of the lawmakers of Amador county, the trout fisher, or any other fisher for that matter, must either let his surplus catch rot on his hands or give the same away. Of course the law is a dead letter. There never has been, and never will be a successful prosecution under it. It is based on its face, and carries its own condemnation. But still it cumber the ordinance book, and hence the fishermen adopt the mutual give-and-take plan to evade its provisions.

to a doctor since I have been taking it.
It is the best medicine for me that I
on the market for liver and kidney
troubles and dyspepsia and other
complaints. Rev. A. G. LEWIS.
